## Turn back the clock on the appearance of aging skin

The Forever Young® BBL® treatment is like receiving three treatments in one. Going deep with your skin, it addresses the visible signs of aging such as pigmentation and redness but also tone and textural changes associated with aging.

Patients love their results after one treatment, but for truly lasting results, Forever Young BBL should be incorporated into an ongoing treatment regimen.

Forever  
Clear  BBL.

## Get Clear...Clear from acne and discoloration

Forever Clear™ takes a multi-step  
approach to combating acne.

- 1** Starting at the the root cause,  
it eliminates acne-causing bacteria
- 2** Treats and reduces redness and hyper-  
pigmentation left from breakouts
- 3** Boosts the healing process for more  
radiant and healthy-looking skin
